## LHCb Data

### Entries
- Total: 65,806
- Mean: 0.4664
- Std Dev: 0.03443

### Graph

- ΣSSp vs. ηSSp
- Linear fit
- Data points with error bars
- Histogram overlay

---

**Note:** The graph shows the relationship between ΣSSp and ηSSp, with a linear fit indicating a strong correlation. The histogram overlay provides a distribution of data points, highlighting the spread and concentration of values around the fit line.
